

**UTAH CHIEFS OF POLICE ASSOCIATION
2020 ATV/UTV RIDE
REGISTRATION \$15.00**

Please note that all the rides this year will be from the staging area close to where the trails are and NOT from the Hurricane Police Department as in years past.

Sunday's ride will be in the Lost Spring Mtn. and Amphitheater areas. It is in Colorado City Arizona about 22 miles East of Hurricane on HWY 59. I have

attached pictures of what people can expect to see from this ride, and the meeting location and parking area. Of all the past rides this is the easiest trail, with no technical areas. It will be a Sunday drive with some beautiful scenery and views. We will cover about 70 miles on this ride.

Bring a lunch we will stop on the trail. There is a gas station The Border Store and a Subway in Hildale, the town just before Colorado City if you are coming in from HWY 59 and want to grab something there for the ride.

Sunday Staging Area Location:

Address 825 Airport Ave Colorado City, Az 86021 Park in the construction yard next to Aaron Dockstader's house.

The ride will leave at 10:30 from this location, be loaded and ready to go.

Attached to this email is a PDF overview of the meeting area and the Parking area.

Monday's ride will be on Sand Mtn. and Fort Pierce Wash areas. It will have a mix of sand, hard pack road and a little moderate rock crawling on the trail but it is nothing very technical, and most places have a bypass. We can spend extra time in any of these areas if the group wants to. We won't be far from the staging area for those that need to leave and those that want to stay can. Distance for this ride will be around 50 to 60, depending on what the group decided they want to see.

Monday Staging Area Location:

Sand Hollow Water Tanks, Sand Hollow Road and SR7 dirt road to the South about 1/2 mile.

The ride will leave this location at 1:30.

Attached to this email is a PDF an overview of the meeting area and the Parking area.

My contact information is listed below. Email me or call my cell if you have any questions.
